

Ecstasy

Eric Burdon

The magic of your kiss
And holding you like this is ecstasy
The love that you have given
Has makes this life I'm livin' ecstasy

Never let me go
Let that love light show
Take me by the hand
And lead me to the land of ecstasy

Now, the first time that I saw you
You showed me the door to ecstasy
Now I just keep prayin'
That I'll always be stayin' in ecstasy

Little girl don't you go away
Not even for a single day, no
Take me by my hand
And lead me to the land of ecstasy

Travel up and down much
But I never found much ecstasy
Now I know you gonna be
With everywhere I go, I'm in ecstasy

Kiss me my dear and then
Kiss me once again
Come on and take me by the hand
And lead me to the land of ecstasy
Take me by the hand
And lead me to the land of ecstasy
Take me by the hand
And lead me to the land of ecstasy
I love you, I love you
Take me by the hand
And lead me to the land of ecstasy
