

## Gotta Get It On

Eric Burdon

Since the sun came up this morning  
Seems I'm into something new  
I think you're gonna get it  
All my troubles are a falling  
All my dreams are coming true  
All my dreams are coming true  
All because I think of you  
All my dreams are coming true  
After all time and space I've learned the taste  
I've learned how to feel the meaning of my memories  
Open up the space between us  
You'll find that the only way  
Find its the only way  
Get down on your back and pray  
Find it's the only way  
After all I knew and yet I couldn't last  
Now I've learned to feel the meaning of my past  
And if youre gonna live tomorrow  
You gotta get it on today  
Got to get it on today  
Got to get it on today
