

## It's All Meat

Eric Burdon

The sound of Muddy Waters and the voice of Jimmy Reed  
When Ray Charles moans  
It's all meat on that same bone  
It's all meat on just one bone

When Miles Davis blows his horn  
When Ravi Shankar plays  
It's all down home  
But it's all meat on the same bone  
It's all meat on just one bone

When Erkel Darbies walks  
When Eric Clapton talks  
There's only one place it can come from  
And it's all meat on the same bone  
All meat, same bone  
Do it!

Don't you listen to none of them jive hip squares  
Try to tell you where the blues is from  
'Cause the blues is from the whole wide world  
Deep within the souls of men

When Muhammad Ali gets mad  
When an Irishman drinks  
It's all for a woman  
It's all for his home  
It's all meat on the same bone  
It's all meat, same bone  
It's all meat, same bone  
Same bone, same thing  
It's all soul, it's all meat...
