

# So Much Love

Eric Burdon

In the mist of all my darkness, baby  
You came alone to guide me  
You took pity on this lonely man  
When you said you'd stand beside me

I'd never forget you for what you've done  
I'd never turn my back on you for anyone

'Cause I got so much love to give you  
Baby, I got so much love to give you  
That's more than enough to last  
Our whole life through  
And it's all for you

My world was cold and empty  
And my life was so unfulfilled  
When I needed someone to pick me up  
Baby, you were so willin'

Now to you that might seem  
Like such a little thing  
But to me baby, it's like a changing  
Winter to spring

I got so much love to give you  
Baby, I got so much love to give you  
And that's more than enough to last  
Our whole life through  
And it's all for you

There are so few women nowadays  
That understand a soul of a man  
They always on a-takin' in  
Never givin', never offerin' a helping hand

But, baby I can count on you  
Whenever trouble come you see me through  
You give your love in so many ways  
Now, I gonna love you the rest of my days

'Cause I got so much love to give you  
Baby, so much love to give you  
I got so much love to give you  
I wanna give, I wanna give  
I wanna give, I wanna give  
I wanna give, I wanna give you  
All of my lovin'  
All of my love belongs to you  
Baby, give it all, give it all  
Give it all  
So much love to give you
