

The Way It Should Be

Eric Burdon

I don't understand what you do
I don't even know how you live
You think that I'm better than you
I think that it's better to give

You want me to tell you the truth
You want me to reason and wait my turn
I haven't the nerve to say no
I guess I deserve the burn you gave me

Can't show my eyes, I don't want to know
I haven't the time to go any slower
I don't understand how you live

And I don't even care if you're not my brother!
