

## Bright Side Girl

Eric Church

They say the sky won't fall  
Today I kinda wish it would  
Get those ol' dark clouds overhead  
Cleared out and stop the rain for good  
Nah, there ain't no sun  
Just an endless shade of gray  
But at the end of this road  
There's a ray of hope  
That'll wash my blues away

Bright side girl  
She's my bright side girl  
A one of a kind, silver linin'  
To lightin' up my world  
Bright side girl

When it's damp and dark  
In the walls of my heart  
She's my bright side girl

She pulls me above the pale  
Gives me cover from the gale  
Paints reds and blues and hues of yellow  
To brighten up my trail

Bright side girl  
She's my bright side girl  
A one of a kind, silver linin'  
To lightin' up my world  
Bright side girl

Yeah, my shelter from the storm  
That keeps me safe and warm  
A refuge from the waves and the wind  
And even when the fog rolls back in

She's my bright side girl  
She's my bright side girl

Yeah, one of a kind silver linin'  
To brighten up my world  
Bright side girl
