

California

Eric Ethridge

On a lonely day, I look out on the freeway
I can fantasize, 'bout the car I drive
Don't need the light on, I can find my way
It's been so long, now I have to say

I'm going to California
Gonna live the life
Sipping on tequila, night after night
Dreaming of the moment
When everything is right
A little bit of love goes a long way tonight

I'm on my way
Heading for the sun
That's where I'll stay
'Til I head back home
Do you ever feel like, you need a change?
Hang out where no one knows your name

I'm going to California
Gonna live the life
Sipping on tequila, night after night
Dreaming of the moment
When everything looks right
A little bit of love goes a long way tonight

On a lonely day, I look out on the freeway
I can fantasize, 'bout the car I drive
Don't need the light on, I can find my way
It's been so long now I have to say
Oh, it's been so long now I have to say

I'm going to California
Gonna live the life (gonna live the life)
Sipping on tequila, night after night
Dreaming of the moment
When everything looks right (everything looks right)
A little bit of love goes a long way tonight

Going to California
A little bit of love goes a long long way
A little bit of love goes a long long way
A little bit of love goes a long long way
A little bit of love goes a long long way tonight
Tonight, tonight, tonight
Going to California
Tonight
