

Give You A Ring

Eric Ethridge

I thought what the hell just happened
When you handed me a napkin
Had your number on it in blue ink
Those seven digits changed everything

Walking back to my apartment
Wasn't sure where my heart went
I'm not the guy to call this quick
But girl couldn't wait to give...

Give you a ring
And you picked up
We talked for hours
Fell in love
Made our mark on history
When you said "I do" to me
The brightest diamond I could find
Still ain't got nothin' on your eyes
When I look back on it
Best thing I ever did
Was give you a ring

We made a couple bold moves
Little faster than your supposed too
Every minute with you in it
Woulda never happened if I didn't

Give you a ring
And you picked up
We talked for hours
Fell in love
Made our mark on history
When you said "I do" to me
The brightest diamond I could find
Still ain't got nothin' on your eyes
When I look back on it
Best thing I ever did
Was give you a ring

In the house we bought there's an old shoe box where I keep that napkin in
The ink's a little faded
But I'm glad I never waited

To give you a ring
And you picked up
We talked for hours
Fell in love
Made our mark on history
When you said "I do" to me
The brightest diamond I could find
Still ain't got nothin' on your eyes
When I look back on it
Best thing I ever did
Was give you a ring
Give you a ring
