

Good With Me

Eric Ethridge

We on a two-lane, payday cruise
Got the King Ranch queen right beside me
Can't stop looking at you, yeah
Blue-green eyes looking my way
You're sliding in to kiss me 'cross that leather seat
I'm swerving, thinking, girl, you go together with me like

Rum goes good with some white sand
Like a beer can's better on a tailgate (Tailgate)
A goodnight kiss goes with the moon glow
Like a slow dance goes with Strait (George Strait)
Lemonade tastes better on the porch
A party dress looks better on the floor
Yeah, like the birds go with the bees
You go, you go good with me
You go, you go good with me
You go, you go good with me

We can roll a couple county lines
Go and find us a neon sign
We can get a little mud on the tires
Find a spot, kill the headlights

We could take it back home and tangle them sheets
It all looks good on you, so it's all good with me, girl

Rum goes good with some white sand
Like a beer can's better on a tailgate (Tailgate)
A goodnight kiss goes with the moon glow
Like a slow dance goes with Strait (George Strait)
Lemonade tastes better on the porch
A party dress looks better on the floor
Yeah, like the birds go with the bees
You go, you go good with me
You go, you go good with me
You go, you go good with me

You go, you go good with me
It's like, it's like meant to be
You go, you go good with me
So good with me like

Rum goes good with some white sand
Like a beer can's better on a tailgate (Tailgate)
A goodnight kiss goes with the moon glow
Like a slow dance goes with Strait (George Strait)
Lemonade tastes better on the porch
A party dress looks better on the floor
Yeah, like the birds go with the bees
You go, you go good with me
You go, you go good with me
You go, you go good with me
You go, you go good with me
You go, you go good with me
