

Made In Mexico

Eric Ethridge

It's rain like this that takes me back
And makes me miss that fire we had
We had everything under the Cabo sun
With a kiss like that you can't have just one
Still taste it on my tongue

We were makin' margaritas with way to much tequila
We were makin' snow angels in the sand on the beach
Makin' out, makin' memories that you can't let go
Yeah, there's something 'bout love made in Mexico

We were late night tracing the stars in the sky
Tryin' to make a handshake deal with time
Just to get a little more but it don't work like that
Now all I can wonder's when we're going back
Yeah, we're goin' back
Let me take you back

To makin' margaritas with way to much tequila
We were makin' snow angels in the sand on the beach
Makin' out, makin' memories that you can't let go
Yeah, there's something 'bout love made in Mexico
Yeah, there's something 'bout love made in Mexico

Salt, lime, long beach, sunshine
My lips, your kiss, takes me back every time
Standin' there I still see ya, sexy little Seniorita
I'll be yours all my life, lovin' you's paradise

Whoa-whoa
Made in Mexico
Made in Mexico
Whoa-whoa
Made in Mexico
Made in Mexico

We were makin' margaritas with way to much tequila
We were makin' snow angels in the sand on the beach
Makin' out, makin' memories that you can't let go
Yeah, there's something 'bout love made in Mexico
Something 'bout love made in Mexico
