

# Since I Don't Know When

Eric Ethridge

I bet I know all the words to all those petty songs  
Yeah I can quote the movies all night long  
Names and faces I can place 'em all  
Yeah on and on

But I can't recall a moment or minute  
One memory without you in it  
Girl you're the turn in my world spinnin'  
'Ound and round  
Night after night and day after day  
Feels like forever can't really say how long it's been  
Yeah I've been loving you since I don't know when

Seems like somewhere somehow I lost track of time  
Like it's always been you right by my side  
Like I've always been yours and you've been mine  
All my life

But I can't recall a moment or minute  
One memory without you in it  
Girl you're the turn in my world spinning  
'Round and 'round  
Night after night and day after day  
Feels like forever, can't really say how long it's been  
Yeah I've been loving you since I don't know when

Seems like forever that's how it's been  
I've been loving you since I don't know when

Cause I can't recall a moment or minute  
One memory without you in it  
Girl you're the turn in my world spinning  
Round and round  
Night after night and Day after day  
Feels like forever, can't really say how long it's been  
Cause I've been loving you since I don't know when

I've been loving you since I don't know when  
I don't know when  
I've been loving you since I don't know when
