

# Food Chain

Eric Hutchinson

Don't let this affect the game  
Every five months we act the same  
But I never get used to putting you off  
And no one could have scripted this  
Who knows what will come of it  
I refuse to believe it's all just a waste

Just look around  
Everybody's on the food chain, funny  
But from day to day we get from bottom to top  
And if you get lost, just start over again  
But we don't ever get to  
No, we don't ever get to stop

I wake up in this oblivious state  
Go to sleep, try to save some face  
Cause I've never one for acting' naive  
So what we got nothing to prove  
Why on earth would we soften the mood  
Do we think that this wire is better left live

Cause look around  
Everybody's on this food chain, funny  
But from day to day, we get from bottom to top  
And if you get lost, just start over again  
But we don't ever get to  
No, we don't ever get to stop

I woulda known better if I was on the outside  
I woulda known better if I was on the outside lookin' in, looki  
n' in  
But this chain just eats away at the people who use it  
No one gonna say that it's easy to lose it  
Tough to say who we need when it's not even on the outside

Everybody's on the food chain, funny  
But from day to day, we get from bottom to top  
And if you get lost, just start over again  
But we don't ever get to  
No, we don't ever get to...
