

## Hell Or Something Like It

Eric Hutchinson

Am I dead? Don't feel too alive  
I cannot feel my face, cannot feel my size  
Am I dead? Feel so less than whole  
Everywhere I look, no good rotten souls

This I don't deserve  
Though I was no saint  
Check the paperwork  
There must be some kind of mistake

This must be hell or something like it  
This must be hell or something like it  
Cause hell has got to know my name

This must be hell or something like it  
This must be hell or something like it  
Cause hell has got to know my name

We all think we're good  
No one likes to fall  
Did the best I could  
But there's not room in heaven for us all

This must be hell or something like it  
This must be hell or something like it  
Cause hell has got to know my name

This must be hell or something like it  
This must be hell or something like it  
Cause hell has got to know my name
