

I Hope She's Just Like You

Eric Hutchinson

I hope she has your eyes
I hope she has your smile
I hope she has your replies
I hope she has your style

I hope she's happy quite naturally
I hope she's wild and free
I hope she's just like you

I hope she's shining your light
I hope she's under your skin
I hope she puts up your fights
I hope she gives it your spin

I hope she's candid and so unrehearsed
I hope she dives in headfirst
I hope she's just like you

And I hope she knows no fear
For a thousand years
And I hope she's never less than true
And I hope she breaks down walls
And she wants it all
And I hope I hope I hope
I hope she's just like you

And I hope she knows no fear
For a thousand years
And I hope she's never less than true
And I hope she breaks down walls
And she wants it all
And I hope I hope I hope
I hope she's just like you

I hope she's just like you
