

# Tell The World

Eric Hutchinson

Let's tell the world all the things we've done  
Falling in love and the setting sun  
I've got a song and a smile so bright  
I'll make you wish you were here tonight

All of the places we ever go  
feel familiar, I'm never alone  
All of the people that I don't know  
Will be looking me up when they all get home

Let's tell the world all the things we've done  
Falling in love and the setting sun  
I've got a song and a smile so bright  
I'll make you wish you were here tonight

And if you tell the world your secrets  
You never know  
What's set in stone  
And what can grow

Tell the world  
Tell the world  
I'm gonna tell the world  
Tell the world  
Tell the world  
That I got something on my mind

Let's tell the world all the things we've done  
Falling in love and the setting sun  
I've got a song and a smile so bright  
I'll make you wish you were here tonight

Let's tell the world all the things we've done  
Falling in love and the setting sun  
I've got a song and a smile so bright  
I'll make you wish you were here tonight
