

# Whether I Like It Or Not

Eric Hutchinson

You and me don't get along we don't see eye to eye  
You drive me up the wall with all your sarcastic replies  
You and me don't get along we've got bad chemistry  
We argue like a married couple but that's just you and me

No way out, no-no-no way out  
No way out, no-no-no way out  
No way out, no-no-no way out without you  
No way out, no-no-no way out  
No way out, no-no-no way out  
No way out, no-no-no way out without you

But I get high when you walk in the spot  
I get nervous I'm losing the plot  
I go crazy for all that you got  
I love you whether I like it or not  
Whether I like it or not  
Whether I like it or not  
Whether I like it or not  
Whether I like it or

You and me are nothing but a pain in our own ass  
You make me feel I'm three feet tall you say I've got no class  
You and me are nothing but familiar frenemies  
We make each other miserable but that's just you and me

No way out, no-no-no way out  
No way out, no-no-no way out  
No way out, no-no-no way out without you  
No way out, no-no-no way out  
No way out, no-no-no way out  
No way out, no-no-no way out without you

But I get high when you walk in the spot  
I get nervous I'm losing the plot  
I go crazy for all that you got  
I love you whether I like it or not  
Whether I like it or not  
Whether I like it or not  
Whether I like it or not  
Whether I like it or not

Whether I like it or not  
Whether I like it or not  
Whether I like it or not  
Whether I like it or
