

Gift of Love

Eric Johnson

Always in my life
You were meant to be
Wrapped inside my heart
You mean that much to me

I used to think of you
When my sun don't shine
Certain change of few
In this life of mine

We find a moment slow it down
There's a place of peace we have found
And the winter wind can't blow away
The gift of love and we share in today

Inroads in your hair
Like pharaoh angels shine
I'm blessed to have your care
Another day in time

We find a moment slow it down

There's a place of peace we have found
And the winter wind can't blow away
The gift of love and we share in today
Oh ya, mmm...

Remember these moments
They won't last
But that's gonna be alright

Always in my life
You were meant to be
Wrapped inside my heart
You mean that much to me

We find a moment slow it down
There's a place of peace we have found
And the winter wind can't blow away
The gift of love and we share in today
Oh ya, mmm...
