

Once A Part Of Me

Eric Johnson

Here's a note to say I'm fine
But words escape between the lines
And tells the story, how the glory
Of all our love, fades to dust

But it's all over and done now
Like a bottle placed on the sea
The story of how
You were once a part of me

What's become of our love
Just what's that word I'm speaking of?
When no more the trust, love deserted us
We have built our world on sand

Now is the hurting
Now is the pain
But there will be an answer
On the way

I'll keep holding on
