

Virginia

Eric Johnson

One thing I'll say
I will always love you, Virginia
You're a part of my life and you make everything so
worthwhile.

The thing about it
When I need a friend she's always there
And she lifts up my day
One thing I'll say
I'll always love you, Virginia

We're going down the boulevard and burning down the
avenue
Yes, going down the boulevard , we're burning down the
avenue
Virginia, always on my mind
Virginia, stay a friend of mine
The thing about it, when I'm sad, she brings me a note or
two
So I say this to you
The one thing I know, I will always love you, Virginia
She takes me up to a place that's so far away

Virginia, always on my mind
Virginia, stay a friend of mine
Thing about it, when I need a friend she's always there
And I say this to you
One thing I know, I will always love you, Virginia
She takes me up to a place that's so far away.
And the whole world keeps turnin'
