

# Everytime I Think Of You

Eric Martin

Come a little closer  
Time's standing still  
My heart beats alone tonight  
I wonder how can we break this space

Build our/on dreams  
Try to reach out across the sky  
We meet in the stars tonight  
Oh now, why do we chose to be lonely

Why do we chose to be sad  
Everytime I think of you  
I keep hoping there's a place for us again  
Everytime I think of you

Why can't we reach out now  
And touch each other  
When lovers walk  
Under the stars tonight

Why don't we  
Step over time and space  
Fill every dream  
We can walk all across the sky

Sleep in a distant night  
Oh now, why do we chose to be lonely  
Why do we chose to be sad  
I wonder why we do it

Everytime I think of you  
I keep hoping there's a place for us again  
Everytime I think of you  
Why can't we reach out

And touch each other  
Everytime I think of you  
I keep thinking there's a place for us again  
Everytime I think of you

Why can't we reach out  
And touch each other  
Try a little harder  
Looking for another world

Walk a little further  
Get a little bit better  
Come and get closer and closer  
Everytime I think of you

I keep hoping there's a place for us again  
Everytime I think of you  
Why can't we reach out  
Why can't we reach out

Everytime I think of you  
I keep hoping there's a place for us again

Everytime I think of you  
Why can't we reach out

And touch each other
