

Gonna Make A Lover Out Of You

Eric Martin

I love to hold you baby
I dig you touch
My love is for always
When you show you want much
My lips are hot like fire
I need you so
You're my one desire
I can't let you go
Come into my arms and be my fantasy
You'll discover lovers that was meant to be
With you it feels so perfect
With you it feels so right
Gonna make a lover out of you tonight
I'm gonna make a lover out of you tonight
Till the light of day breaks through
Yes, I'm gonna make a lover out of you - that's right
And you'll never wanna lose me
'Cos all the love I have is just for you
My heart is pounding like a jungle drum
Still the night has only just begun
Your fever that is burning
I'm getting kinda hot
Don't hold babe
Give me all you've got
Baby, every kiss from you lights another flame
I just wanna love you
Again and again
With you it feels so perfect
With you it feels so right
I'm gonna make a lover out of you tonight
I'm gonna make a lover out of you tonight
Till the light of day breaks through
Yes, I'm gonna make a lover out of you - that's right
And you'll never wanna lose me
'Cos all the love I have is just for you
Just for you
I'm gonna make a lover out of you tonight
Till the light of day breaks through
Yes, I'm gonna make a lover out of you - that's right
And you'll never wanna lose me
'Cos all the love I have is just for you
Let me hold you baby
Let me feel your touch
Gonna make a lover out of you tonight
My loving is for always let me show you how much
Gonna make a lover out of you tonight
My heart is pounding like a jungle drum
Gonna make a lover out of you tonight
Yeah, but still the night has just begun
Gonna make a lover out of you tonight
