

## Precious

Eric Martin

I couldn't see the world around me, slowly I stumbled,  
I did fall  
Wanted to know, what it means to love so I defined it  
on my own  
I believe in love and know that love is all

I promise you I searched for oh so long  
And I will be strong, just let me prove my love to you  
I won't run away, won't turn my back on you  
You're showing me the reason to believe my heart

If we believe, believe in you and me,  
Our love will go on. It was meant to be.  
Just make a wish look deep into my heart  
This feeling so real. I've known it from the start  
And I know you understand what I've been thinking of  
And it's true that this time two will become one,  
Your precious love

I see your pain, don't let it bring you down  
You must be strong. Just hold me and I'll show you how  
Oh can't you see that you're not alone  
Someone to share the meaning of the word true love

If we believe, believe in you and me,  
Our love will go on for eternity.  
Just hold my hand, I'll never let it go  
I'm saying a prayer just for the two of us  
And I know you understand what I've been thinking of  
And it's true that this time two will become one,  
Just the two of us

So selfishly, carelessly I hurt you long ago  
Now I know, I believe in something that is real  
There can be truth, hope and charity a brand new start  
and I want to be one with you

I do believe my love will set you free  
Yes I do believe I'm right here for you  
Our light will shine, for an eternity  
Hold on to me baby just stay close to me

If we believe, believe in you and me,  
Our love will go on. It was meant to be.  
Just make a wish look deep into my heart  
This feeling so real. I've known it from the start  
And I know you understand what I've been thinking of  
And it's true that this time two will become one,  
Your precious love
