

These Are The Good Times

Eric Martin

There's times i reach inside myself
Come up empty
She knows
All the things i said and did, seem up to nothing
She knows
She takes me to the room
Says forget about the past
Let's make this moment last

Chorus:

These are the good times
These are the times we're gonna laugh about
Now is the time we're gonna dance and shout
Cause these are the good times

Time after time, when the world is pulling me down
She saves me
All the storms of another day
Rise up inside like a hurricane
She saves me
She takes me to the room
Says dont worry anymore
Love is what life is for

Chorus

Good times!
(Guitar solo)

She tells me we can still dance in the rain
She holds me close through the night
And I will love her, again and again
She makes everything riiiiiiiiiiiiiiiiight
These are the times we're gonna laugh about
Now is our time, we gotta dance and shout

These are the good times
These are the good times
These are the times we're gonna laugh about
Now is the time, we're gonna dance and shout

These are the good times
These are the good times
These are the times we're gonna laugh about
Now is the time, we're gonna dance and shout

These are the good times.....(fade out)
