

# Body

Eric Nam

I can't explain it  
My fingers got minds of their own  
Frustrated, cause your eyes say don't let me go  
You got me craving and aching inside  
I'm twisted and faded so  
Baby give me what u got

You know that you could have me over and over again  
Yeah I can feel you under my skin, yeah  
When you touch my body  
When you touch my body

When you touch my body  
You make me feel as if I could  
Touch the sky babe  
Yeah we're just two bodies  
Run in my veins cause you  
You electrify me  
You and I, you and I come alive, come alive  
You and I, you and I come alive  
When you touch my body

Baby just give me a call  
Listen to you all night long  
Only one that's locking me down, down, down  
Whisper to me what you wanted  
And whatever it is I'll be on it, oh yeah  
Baby tell me what you like

You know that you could have me over and over again  
Yeah I can feel you under my skin, yeah  
When you touch my body  
When you touch my body

When you touch my body  
You make me feel as if I could  
Touch the sky babe  
Yeah we're just two bodies  
Run in my veins cause you  
You electrify me  
You and I, you and I come alive, come alive  
You and I, you and I come alive  
When you touch my body

You know that you could have me over and over again  
Yeah I can feel you under my skin, oh  
When you touch my body  
When you touch my body

When you touch my body  
You make me feel as if I could  
Touch the sky babe  
Yeah we're just two bodies  
Run in my veins cause you  
You electrify me  
You and I, you and I come alive, come alive  
You and I, you and I come alive

When you touch my body

You and I, you and I come alive, come alive

You and I, you and I come alive

When you touch my body
