

Don't Leave Yet

Eric Nam

I know you wish that you could call em
Found something else to fill the space
A high that never leaves you falling
A moment you don't have to chase

If it's a dark lonely road
In the car going home
Watching stars on the coast
Without someone to hold

You don't need to leave yet
Cause there's a reason
You just wanna dance (dance)
You could shake your feelings
Cause there's a reason
You just wanna dance (dance)

All of those neon lights
Ain't gonna dry your eyes
But if that's what you need tonight
You don't need to leave yet
Heartbreak's the reason
You just wanna, just wanna, just wanna

Keep on moving keep on spinning
Til the music drowns it out
Let the someone you been missing
Become a stranger in the crowd

If it's a dark lonely road
In the car going home
Watching stars on the coast
Without someone to hold

You don't need to leave yet
Cause there's a reason
You just wanna dance (dance)
You could shake your feelings
Cause there's a reason
You just wanna dance (dance)

All of those neon lights
Ain't gonna dry your eyes
But if that's what you need tonight
You don't need to leave yet
Heartbreak's the reason
You just wanna, just wanna, just wanna Dance

Just wanna, just wanna, just wanna dance
Just wanna, just wanna

If it's a dark lonely road
In the car going home
Watching stars on the coast
Without someone to hold

You don't need to leave yet

Cause there's a reason
Heartbreak's the reason
You just wanna, just wanna, just wanna...
