

# Everywhere I Go

Eric Nam

Thought I saw you on the corner  
Of 15th and 35  
I tell myself it's not over  
Love to whisper all these pretty lies

Without you, the days get longer, longer  
And my nights, feel so much colder  
I need you

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

I'm looking over my shoulder  
Chasing shadows of you every night

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

I tell myself I'm not lonely  
I just need a little peace of mind  
Funny how you still control me  
Oh I love it when you creep inside

Without you, the days get longer, longer  
And my nights, feel so much colder  
I need you

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

I'm looking over my shoulder  
Chasing shadows of you every night

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

Over, over, over  
Over, over, over

We ain't  
Over  
We ain't  
We ain't really over

We ain't  
Over  
We ain't  
We ain't really over

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over

I'm looking over my shoulder  
Chasing shadows of you every night

Everywhere I go  
Everywhere I go  
I still see your face  
No we ain't really over
