FLOAT

Eric Nam

No, I can't be patient
Pulling up in this spaceship
Don't need no destination, baby come on
Uh, don't need to complicate this
We're lifting off of this pavement
I'll take you to that place where we can vibe on

There ain't nothing but a slow ride
So come on, let's catch some more vibes
Baby let me get by your side
And hold on

Wanna float away with you
Wanna float away with you
Nothin' else I'd rather do
Wanna float away with you

Away, yeah
Away, away
Away, yeah
Yeah yeah yeah yeah

Sun over that ocean
Sippin' on that potion
Don't matter where we roll in, baby come on
Your love prescription
Has gettin' me so lifted
'Bout to take this trip where we can vibe on

There ain't nothing but a slow ride
So come on, let's catch some more vibes
Baby let me get by your side (your side)
And hold on

Wanna float away with you
Wanna float away with you
Nothin' else I'd rather do
Wanna float away with you

Away, yeah
(Hold on)

Hey, s-s-so come on baby
Yeah, s-s-so come on baby
So float on, float on
Oh yeah, float on baby
Hey yeah
Oh, oh!
Yeah-eah-eah
No ooh, yeah
Ooh ooh ooh!

Wanna float away with you
Wanna float away with you (hey, float away, float away)
Nothin' else I'd rather do (yeah yeah)
Wanna float away with you (float, float, float, float, float, float!)
