

Into You

Eric Nam

I skipped a breath
When I first saw you
No longer need air
I just needed you
Float like a dream
You and I rolling together
Everything seems dry
When you're not here
Drownin in a pool of love
Out of breath don't pull me up
You're a dream
Don't wake me up now

So take me over (over over)
Show me what you do
Pull me under (under under)
I'm diving into you

You let your hair fall
On my shoulders
Your warmth on my skin feels
Better than the sun
If we ran away tonight
I wouldn't argue
You're my excuse
To be adventurous

Drownin in a pool of love
Out of breath don't pull me up
You're a dream
Don't wake me up now

So take me over (over over)
Show me what you do
Pull me under (under under)
I'm diving into you
(I'm diving into you)
So take me over (over over)
Show me what you do
Pull me under (under under)
I'm diving into you

Just come pull me into you into you
Just come pull me into you into you
Just come pull me into you into you
Just come pull me into you
So take me over (over over)
Show me what you do
Pull me under (under under)
I'm diving into you
(I'm diving into you)
I'm diving into you
