I never imagined I'd fall for you this much
Who are you? What are you?
You fell down like sweet rain on my dry heart
I've never felt this way before

Each look, body movement you make tempts me
(Baby come, baby come with me)
My heart, eyes and head have all stopped

Ooh ooh ooh ooh oh pretty baby

Ooh ooh ooh ooh I think I'm drunk
Ooh ooh ooh ooh making me crazy
Ooh ooh ooh ooh hold my hand

OK! I don't need to tell you, you know who I am
It's really rare for me to approach someone first
Before the moon goes away,
I ask for your address not your number
Our height difference is perfect,
There's no need to say let's get closer or take it slower
Sweetly whisper to me after you
Wake me up tomorrow morning on the bed

I don't care what it is so tell me about yourself
I'm curious, I want to know you
In my calm heart, you blew like the wind
I wasn't like this before

Your voice, your scent, each of them stimulates me
(Baby you, baby you so sweet)
My breath, touch, senses have all frozen

Ooh ooh ooh ooh oh pretty baby
Ooh ooh ooh ooh I think I'm burned
Ooh ooh ooh ooh making me crazy
Ooh ooh ooh ooh I'm looking at you

Open the way to you,
Allow me
You won't regret it,
Trust yourself to me, oh baby

I don't know what to say,
There's only sounds of awe in my mouth
Like fizzing cola, you surprise me
With your beautiful body
I'll sing for you lalala doremifasolla
I'll be the wings on your back,
Climb on me and tell me, I only know you

Ooh ooh ooh ooh oh pretty baby
Ooh ooh ooh ooh I think I'm burned
Ooh ooh ooh ooh making me crazy
Ooh ooh ooh ooh I'm looking at you
