

# Angels In This Town

Eric Paslay

Hail Mary touchdown  
Caught it, don't know how  
Felt something lift you up a little bit higher  
Six for the win  
And the crowd goes wild  
Ain't nothing better than a hometown choir

Between the dirt and sky  
Don't know when or why  
Miracles arise

Call it what you want  
But I know the truth  
Angels in this town  
Lookin' out for me and you  
All I know is I wouldn't be here now  
Call it what you want  
I swear there's angels in this town, this town, this town  
I swear there's angels in this town, oh, yeah

Dozed off hard, night shift tired  
Should have been a funeral  
Should have been a fire  
Woke up head on  
90 miles an hour  
Missed that truck by the skin of your tire

Call it what you want

But I know the truth  
Angels in this town  
Lookin' out for me and you  
All I know is I wouldn't be here now  
Call it what you want  
I swear there's angels in this town, this town, this town  
I swear there's angels in this town, oh, yeah

Between the dirt and sky  
I don't know when or why

Call it what you want  
But I know the truth  
Angels in this town  
Lookin' out for me and you  
All I know is I wouldn't be here now  
Call it what you want  
I swear there's angels in this town, this town, this town  
I swear there's angels in this town, oh, yeah

I swear there's angels in this town (This town, this town)

I swear there's angels in this town yeah
