

Best Damn Days

Eric Paslay

You showed this small-town boy a few new ways to fly
You stole my heart like the stars steal blue from the sky
California cool too hot to handle, burning both ends of the candle
Reckless kids did that summer right

We were the ones singing bye bye American Pie, oh
Forever young, those were the best damn days of my life, oh yeah

Sometimes my mind rewinds and I'm
Somewhere back there with you
Under the sun, over the moon

Never seen a plain white t-shirt look so good, nah
You dreaming out loud laying back on my Chevy hood
I smile every time that summer rains, Jack and Coke will never taste the same
For a moment in time, the universe said you were mine

We were the ones singing bye bye American Pie, oh
Forever young, those were the best damn days of my life, oh yeah

Sometimes my mind rewinds and I'm
Somewhere back there with you
Under the sun, over the moon

Oh, do you ever look back baby?
Yeah, the times we had baby

We were the ones singing bye bye American Pie
Forever young, those were the best damn days of my life, yeah

We were the ones singing bye bye American Pie, oh
Forever young, those were the best damn days of my life, oh yeah

Sometimes my mind rewinds and I'm
Somewhere back there with you
Under the sun, over the moon

Under the sun and over the moon
