Endless Summer Dream

Eric Paslay

Sippin' on a little sweet
Heaven underneath our feet
Good vibes seaside
Shadows on a barefoot beach

Take a picture of you and I
In a postcard paradise
Don't have to wish that we were there
Yeah cause we were here

Soakin' up that sunset sinkin'
Lighters up while the band is singin'
Lets live forever baby young and wild and free
Rockin' on while the waves are rollin'
Gonna keep a good thing going
Let's live forever in this endless summer dream
Let's live forever in this endless summer dream

Floatin' on a feel good song
Baby and the beat goes on
All night all right
Right where we belong

Between the sunshine and the moon
Holdin' me girl, holdin' you
Every memory that we make
Just gets better baby

Soakin' up that sunset sinkin'
Lighters up while the band is singin'
Lets live forever baby young and wild and free
Rockin' on while the waves are rollin'
Gonna keep a good thing going
Let's live forever in this endless summer dream
Let's live forever in this endless summer dream

Forever endless summer dream
Forever endless summer dream

Endless summer dream baby
Endless summer

Soakin' up that sunset sinkin'
Lighters up while the band is singin'
Lets live forever baby young and wild and free
Rockin' on while the waves are rollin'
Gonna keep a good thing going
Let's live forever in this endless summer dream
Let's live forever in this endless summer dream

Forever endless summer dream
Forever endless summer dream
Forever endless summer dream
Forever endless summer dream
