## **Woman Like Her**

**Eric Paslay** 

She ain't wallpaper hidden in plain sight Or an arm candy savior on a Saturday night Her heart ain't wired for a one night stand A woman like her is good for a man

She ain't a rebel she don't even smoke But she's the real reason they made rock and roll She'll test your temper just cause she can A woman like her is good for a man

I'd be a walkin' disaster An unhappily never after If she hadn't come and wrecked all my plans A woman like her is good for a man Yeah a woman like her is good for a man

She loves the kitchen but she hates to cook She's arms open wide but she's no open book She's a life long riddle you'll never quiet understand Oh a woman like her is good for a man

I'd be a walkin' disaster An unhappily never after If she hadn't come and wrecked all my plans A woman like her is good for a man Yeah a woman like her is good for a man

She's all kinds of pretty in all kinds of ways She's painfully honest but at the end of the day She wont ever say it but it a'int hard to see I know I need her more than she needs me

I'd be a walkin' disaster An unhappily never after When you find the one then you'll understand A woman like her is good for a man A woman like her is good for this man

She wont ever say it but it a'int hard to see I know I need her more than she needs me
