

Cash the only thing on my mind
I gave up what I thought would be my wife
'Cause I done lost a whole lotta time
And I gotta be rich by 25

I put tints on my eyes
There's a lot of shade, bitch, I can see through them lies
We not cool lil' bitch, you know it's "fuck the other side"
Done with playing nice but this flow one of a kind
Tatted up my face, my momma cried
You know that lil' number changed my life so why are you surprised?
I do what I want inside this life
Uh, I'll do what I want until I die
Uh, I need revenge on them bitches that betrayed me
Stack a mil' for every time that they blame me
Fuck a slut for every time that they shame me
Cop a chain for every time they tried to tame me
Lost 300k and I'm finna stack it again
This lil' hoe knows that I'm finna rap it again
Tell me I'm alone, shit, I'm finna sip it again
Sip it again, sip it again, sip it again

Cash the only thing on my mind
I gave up what I thought would be my wife
'Cause I done lost a whole lotta time
And I gotta be rich by 25

I gotta be rich by 25
Gotta be rich by 25
I said that I'll be rich by 25
So I gotta be rich by 2-

Five years in, my brudda quit on me, and that's ok with me
But then he switched for his bitch and blamed that shit on me
I was at the trap with them rats and I couldn't sleep
They turned me around at the border and I couldn't leave
All by my lonely, started making beats
All by my lonely sippin' Hennessy
All by my lonely, phone on DND
All by myself I'm finna rep the V
Fuck do you hoes think I am?
Stay about that green just like I'm Sam-I-Am
I just got my visa to meet Uncle Sam
I need that money now, that's just who I am

Cash the only thing on my mind
I gave up what I thought would be my wife
'Cause I done lost a whole lotta time
And I gotta be rich by 25

I gotta be rich by 25
Gotta be rich by 25
I said that I'll be rich by 25
So I gotta be rich by 2-
