

## Buzz

Eric Reprid

Float up with the bees  
You is what I see  
You generate the buzz I need  
I don't want to talk  
I just want to love  
You  
You know I need ya  
Girl I can tease you  
And I know it ain't easy

Pull up in a white six six  
Bitch I look good with gold on wrist  
Tommy James on crimson shit  
I just be living on a wave that's it  
How do you do it?  
Inhibition is losing  
Now we rockin' up my place  
Angles on her like Myspace

I caught a feeling and I want you to say  
Girl that you need me in the same kinda way  
We can take this to another level, I'd die for you  
We're making all the love, let's meet in the sky for some

Float up with the bees  
You is what I see  
You generate the buzz I need  
I don't want to talk  
I just want to love  
You  
You know I need ya  
Girl I can tease you  
And I know it ain't easy

Baby I'm a mess  
I'm tryna go do less  
You never too impressed  
I make it too complex  
You put me under stress  
I swear I just want sex  
You know I don't do text (no, no)  
And I keep drownin' in my head  
Cause I'm tryna to get my buzz up  
In the kitchen mixin' Jack with Coca-Cola  
Need somebody when it's cold like Minnesota  
Get with me before I go supernova  
It's a big world ya  
Fuck them other dudes tryna get with ya  
They go do you wrong  
You been down too long  
I can put you on  
Just say the word, I'm  
There  
You was in the room when no one even cared  
And I know the way they treat you just ain't fair  
But I'm, guessin'  
I just done so much wrong had to learn my lesson

Stay focused on progression  
Count my blessings

Float up with the bees  
You is what I see  
You generate the buzz I need  
I don't want to talk  
I just want to love  
You  
You know I need ya  
Girl I can tease you  
And I know it ain't easy
