

Cold World

Eric Reprid

My head so messed up but I can't fold to no fear
Got sights set right up on these bands that I'm gon' use to wipe tears
Five years still stickin' to the plans I made when I was a jit
Told moms I can't go live no normal life won't stop 'till I'm rich
Said where were you when I was down bad
Now the money comin' to me so fast
Left the ho she a big dub straight forward with it I won't go back
Everybody livin' better I still remember times we done broke down
Plotted on this come up I gotta get a bag for the fam now but

I got nobody to lean on got a cold heart in a cold world
Ever since you left I don't know what's next I ain't found closure
I keep a knife in my chest just to cut hoes off I don't know 'em
Leavin' a bitch in the past I gotta go now it's over
Left me out here grievin'
Shit don't add up baby I'mma get even
It's a cold world baby and I'm just gettin' heated
Said I'm the only one I ever really needed

I gotta find a way outta this fuckin' position
I stay with the gang and don't stress 'bout no bitches
I took all my pain and I put it in records they turn up the speaker I turn i
t to riches
When I'm alone the past come back to haunt me so I feel like turnin' that bo
y to a Casper
When I'm off whiskey I feel like myself and I'll turn that bitch up cause it
really don't matter
I got my mind on my money
Paranoid they all look at me funny
Stressed out so my liver stay muddy
Pipe down you won't take nothin' from me
I don't need nobody to love me
I don't ever put nobody above me
Did the time you can't say that I'm lucky
Shit done changed bitch stay away from me

I got nobody to lean on got a cold heart in a cold world
Ever since you left I don't know what's next I ain't found closure
I keep a knife in my chest just to cut hoes off I don't know 'em
Leavin' a bitch in the past I gotta go now it's over
Left me out here grievin'
Shit don't add up baby I'mma get even
It's a cold world baby and I'm just gettin' heated
Said I'm the only one I ever really needed

I got nobody to lean on got a cold heart in a cold world
Ever since you left I don't know what's next I ain't found closure
