

# Delusional

Eric Reprid

She say don't get caught up in the drama that's some weak shit  
I ain't seen the sun inside this room in like a week, shit  
You won't catch no change in my expression fuck the weakness  
I don't catch no break for 7 days what's a weekend?  
My delusion's all I need  
Needin' you to leave me be  
Swear to God they all gon' see  
When we pull up in that ESV

I won't do this shit calmly  
Fuck they lil' Audi's  
Big drive can't off me  
Big talk, speak softly  
These nights get costly  
My bros they got me  
No man gon' boss me  
Son fall back, we off sprin  
I cannot check my sides no way  
They ain't even in my space  
Lil' bitch mad he ain't get his way  
Tell the boy it's okay  
Moods in that lil' bitch oscillate  
He just in a phase  
Always stay draped in that Fear of God  
Why you so afraid?
