

# Help Me

Eric Reprid

I don't wanna do this anymore  
This life done broke me to the core  
And I don't know what I'm living for  
But I just know I don't want no more  
Blessings man I'm sick and tired of counting blessings  
Stressing 'bout some shit that hasn't even happened  
Tear me down I don't wanna learn my lesson  
I'm so numb now nothing is upsetting  
Fuck this life man I lost all my patience  
I'm sick and tired of people always tryna take shit  
Can't even tell if this is worth what I gave it

So please tell me  
Why won't anybody try to help me  
All these fake friends finna fail me  
And all these motherfuckers tryna sell me short  
So please tell me  
Why won't anybody try to help me  
All these fake friends finna fail me  
And all these motherfuckers tryna sell me short

Been on my dolo so nobody can betray me  
Headaches and heartbreaks is all they gave me  
And I know ain't nobody finna save me  
But I can't let these motherfuckers break me yeah  
Five years since I told mom I'd make it yeah  
I done cried so many times up in that basement yeah  
So you can bet your fucking life I'll get my payment yeah  
Bitch your shorty finna love me cause I'm too legit  
Pussy talking shit I keep a Ruger clipped  
I've been down before bitch I ain't new to this  
You know my heart is heavy  
I know that I've been ready

So please tell me  
Why won't anybody try to help me  
All these fake friends finna fail me  
And all these motherfuckers tryna sell me short  
So please tell me  
Why won't anybody try to help me  
All these fake friends finna fail me  
And all these motherfuckers tryna sell me short
