Hold My Heart

Eric Reprid

I don't forgive people man
And you know that

Can you hold my heart
Can you hold my heart tonight
Can you hold my heart
It's tearin' me apart inside
'Cause I can't trust a soul
Can you hold my

Ghostin' that hoe I ain't trusting a soul
Fuck but I'm tired of being alone
How can I trust when my brudda done switched
How can I love if that shit don't exist
That was my dog but he switched for his bitch
Talk on my name but he gave it a twist
Drownin' in Henny I'm drunk and I'm pissed
Remember when we was just chillin' as kids
Dropped out of school to get so fuckin' rich
We done came up from his mama's lil' crib
Six years later he gave up on his shit
And told me he tryna break up with his bitch
He told her he still wanna fuck with some hoes
Shorty was tweakin' and blew up his phone
Cards on the table and he chose to fold
Next day he told her he was bein' controlled (huh)
I done came back from New York and he was movin' real shiesty
One look and I know he don't like me
Said I was evil and said I was slimey and he was too scared to defy me
But he the one beggin' for help to break up with that girl so that really su
rprised me
Sayin' that I was his bro but he started to cut me off like a lil side piece
 (huh)
And he started playin' the victim and twisted up stories to people beside me
Really done broke my heart to see him justify all of the lies he was hidin'

Can you hold my heart tonight
Can you hold my heart
It's tearin' me apart inside
'Cause I can't trust a soul
Can you hold my

Only child he was my brudda that I never got but I wish that I had
I loved him just like my family but he cut me off 'cause his bitch done got
sad
Must've been kiddin me
That shit was childish and somethin' we could've got past
So how can I trust when my brudda for life would switch up on some small shi
t like that
And how can I love when I love to the max but regardless it still all goes b
ad
(Fuck)

Can you hold my heart tonight
Can you hold my heart
It's tearin' me apart inside
'Cause I can't trust a soul

```
Can you hold my
```
