

In The Night

Eric Reprid

All I wanna be is faded
Feel wasted
In the night with you
I got
Everything I need

I'm gon' have to push it 'till my body don't work for me
What the fuck they want from me
It ain't been fun for me
Tryna' put a price on it
Grinding all night for it
Like I'm tryna' die for it
Liquor take my mind off it
They can't block the shine from me
Stay away from me
Ho don't play with me
I can't take it easy
Too much pain on me
You don't make it easy
Want you all for me
Maybe I'm too greedy
No apologies

All I wanna be is faded
Feel wasted
In the night with you
I got
Everything I need

All I wanna be is faded
Feel wasted
In the night with you
I got
Everything I need

I done bet way too much on this
I can't go back that don't make sense
Swear gave up so much of my life I don't who the fuck this is
Cut my friends off
Cut these hoes off
I need bands now
I need closure
Pour the jack up
With the soda
My bro back up
He on Yoda (yeah)
Point out my flaws
Gimme that jaw
I don't do repeats nah
Fill up my pockets
No I can't pause it
Gotta go profit yea
I like it polished huh
Talkin' that nonsense now
Off of that tonic yea
And I can't get enough

All I wanna be is faded
Feel wasted
In the night with you
I got
Everything I need
All I wanna be is faded
Feel wasted
In the night with you
I got
Everything I need I need I need

Why my days always startin' in the night now
I don't wanna stay if you not mine now
You got my thoughts violent
And its hard to close my eyelids
I'm alone too much in the night time
All this shit don't feel right
In the night
Oooooo
Oooo
In the night
I'll be alright
Oooooo
Oooo
In the night
I'll be alright
