

# Left And Right

Eric Reprid

I-Imma just speak  
I just...  
Lost a lot of things  
Learned a lot of things you know  
And this is the summary of my life  
Past 5 years

Broke my fathers heart when I was 18  
Told him give me time he just had to believe  
Wasn't worth a dollar but I had to chase a dream  
Cut off everybody me and Wavy was the team  
Said give us two years and everybody gon' eat  
But first we had to give up everybody for some beats  
After 5000 emails and a song a week  
Me and Wavy turned into the same human being  
Fast forward five years and now we 23  
My father still praying that my music don't succeed  
And my brotha leaving me to go and chase his dream  
This the last time that me and Wavy be a team

But would you have left if it didn't go right  
Would you stay with me through the cold nights  
Would you give me Advil or give me advice  
Would you pay attention or tell me the price  
Cause if you left then it wouldn't feel right  
Can you stay with me through the cold nights  
Don't need Advil think I'm needing some advice  
Can you pay attention cause I can't pay the price

Felt my heart break too many fucking times  
So I promised that I'd never get a fucking wife  
I was 21 and fucking bitches in the night  
Looking back I know that I ain't treat my women right  
Fast forward now I got a girl in my life  
To think back then I would've rather fucking died  
Now all these hoes feel like a waste of time  
I guess sometimes you change your mind  
And the money finally coming my way  
But last year I lost like a hunnit fucking K  
Well money doesn't matter as long as I still got my gang  
I just pray I never have to look at them and say

Would you have left if it didn't go right  
Would you stay with me through the cold nights  
Would youu give me Advil or give me advice  
Would youu pay attention or tell me the price  
Cause if you left then it wouldn't feel right  
Can you stay with me through the cold nights  
Don't need Advil think I'm needing some advice  
Can you pay attention cause I can't pay the price
