

Jumpin' out the whip shit's cold
Watchin' my step ground froze
Most my days spent lone
Same with my bro, he knows
Gotta pay dues
Walkin' in mud, you can check my shoes
Tryna bite this might chip yo tooth
Tryna come with, you fake, no room
Went and made that deal
This shit gon' pay bills
Time be on my ass, 'bout to pull a stunt like Copperfield
Wanna see Holly's hills
That bitch got heat for real
Sad, lookin' past the windowsill
I been thinkin' bout the same shit still

Gonna hit the I-5
It won't be no shock
I've been plannin' for a while now
No sign tell me stop
One day we gonna climb your top five
Grow with every drop
All night you just wanna get high
Next day you forgot
Thought I told you that

This my niche
Play my role, what you hold?
Lil' boy best don't reach
Yo shit dirt, you get curved
I just sow and reap
With that ease, hella clean
Rips all on yo knees
That's that work, when you hurt
My head full of steam
I got lucid dreams
I make movie scenes
This not new to me
Greed gon' kill like Scream
Ego my enemy
My heat got entropy
It's all just chemistry

Lemonade sippin'
I was in the class tryna get my wishes
Dirt on my plate, so I had to clean dishes
Knew that I'ma do this, I just had that feelin'
You ain't gon' live like me
These heights be too frightening
They opinion be too trifling
Don't like love, only do the flings
I think
She the one, she the one, she the one for me
She the one, she the one, she the one I need
Then I think "fuck that bitch"
I just want to fuck, gotta scratch that itch
Only 19, love don't make no sense

I don't want to ask where all my time went
I told you

This my niche
Play my role, what you hold?
Lil boy best don't reach
Yo shit dirt, you get curved
I just sow and reap
With that ease, hella clean
Rips all on yo knees
That's that work, when you hurt

All night you just wanna get high

Play my role, what you hold?
Lil' boy best don't reach
Yo shit dirt, you get curved
I just sew and reap
With that ease, hella clean
Rips all on yo knees
That's that work, when you hurt
My head full of steam
I got lucid dreams
I make movie scenes
This not new to me
Greed gon' kill like Scream
