

# Plaza

Eric Reprid

You ain't know you dealing with a monster  
Let her go cause she a pre-Madonna  
Sweating me like she be in a sauna  
Tryna bend her down in Tijuana  
Stack the money taller than the plaza  
Got a lot of drip with no water  
I'm gon' shot gun with no sawed off  
She know them problems coming with the Prada  
I just down more so I'm up now  
Can't afford to drive so she bus 'round  
Still in school learning new things now  
Need to get a bag for the fam now

We gon' head south watch 'em envy  
I need me a Bentley not no ten speed  
Tryna ride my wave with no jet-ski  
Then you wanna kick it like you Messi  
Now you got it fucked up and messy  
Live it up  
Still I'm making lemonade like Nestle  
You could sneeze  
Still ain't get no more fuckin' blessings  
Needy bitch  
I don't fuck with anybody begging

You ain't know you dealing with a monster  
Let her go cause she a pre-Madonna  
Sweating me like she be in a sauna  
Tryna bend her down in Tijuana

Stack the money taller than the plaza  
Got a lot of drip with no water  
I'm gon' shot gun with no sawed off  
She know them problems comin' with the Prada  
I just down more so I'm up now  
Can't afford to drive so she bus round  
Still in school learning new things now  
Need to get a bag for the fam now

Why you think we fam you ain't met me  
All you folk lame not impressive  
You just want the fame and the guala  
I could see through that message  
Running outta fuckin' options  
Liver full of them toxins  
I need you to quit the talking  
No off switch oh yea  
She be from the city big racks on that bitch  
All the fucker lame tryna act on a bitch  
Tryna swim in money doing laps on a bitch  
Hunnit cash on that bitch  
Still gon' tax all yo shit

I ain't know I'm dealing with a monster  
I can't fuck with no pre-Madonna  
Got me sweating like I'm in a sauna  
I won't bend her down in Tijuana

Stack the money taller than the plaza  
Got a lot of drip with no water  
I'm gon' shot gun with no sawed off

Still in school learning new things now
