

Shannon's Song

Eric Reprid

Try to impress
Try to look your best
But it don't matter at all
I see all your flaws
And what you did wrong
And where you belong
And baby girl
I am obsessed
I love you who you is
And I don't want it to change
They fill up my brain with all of this rage
And you take it away
Mmm yeah

365 days in a year
Ain't enough to tell you 'bout my mistakes and my fears
365 days with you here
Ain't enough to make the hole in my heart disappear
I need more time with you baby
I'll stay alive with you baby (yeah)
I'll never lie to you baby
Only gon' lie with you baby (yeah)

Call me into the morning baby
I got so much to say
16 shots now I'm fucked up baby
I just want you to stay
Sometimes I know that you can't take me
But I never meant to push you away
Broke down to you cause I can't take it
But I promise you I'm never gon' break (ye)

We both can't help ourselves
Help ourselves
You saved me from myself
From myself (yeah)

365 days in a year
Ain't enough to tell you 'bout my mistakes and my fears
365 days with you here
Ain't enough to make the hole in my heart disappear
I need more time with you baby
I'll stay alive with you baby (yeah)
I'll never lie to you baby
Only gon' lie with you baby (yeah)
