

# Something To Nothing

Eric Reprid

(Good evening)

Really does it matter when I split?  
Cause my heroes ain't makin' it past 26  
Really does it matter if you known?  
Win the masses with yo actions then you lose your soul

I'm hopin' you say somethin'  
I keep on just feelin' this nothin'  
Wanna make you my somethin'  
These drugs don't really solve nothin'  
I'm hopin' you say somethin'  
I keep on just feelin' this nothin'  
Wanna make you my somethin'  
These drugs don't really solve nothin'

Spoil the story I'm like vro  
You know we die in the end  
I gotta go hit the road  
Put on 'fore I go to rest  
You know my life be a movie  
Direct it, not watchin' em screw me  
Mama still hate the direction get it  
I get it I get it but I gotta go now  
Think it's 'bout that time I get my own house  
Can't be stayin' this still we gettin' old now  
Can't be livin' this fast I gotta slow down

I'm hopin' you say somethin'  
I keep on just feelin' this nothin'  
Wanna make you my somethin'  
These drugs don't really solve nothin'  
I'm hopin' you say somethin'  
I keep on just feelin' this nothin'  
Wanna make you my somethin'  
These drugs don't really solve nothin'

I'm hopin' you say somethin'  
I keep on just feelin' this nothin'  
Wanna make you my somethin'  
These drugs don't really solve nothin'  
I'm hopin' you say somethin'  
I keep on just feelin' this nothin'  
Wanna make you my somethin'  
These drugs don't really solve nothin'

This ain't love  
Just somethin' for the winter time  
Need shelter for my mind  
Don't want no love  
Just somethin' to get through the night  
I'm callused from my life
