

# Take Five

Eric Reprid

Know you said don't leave me  
But the money don't come easy  
Drown myself in this Hennessey and that shit got me feelin' queezy  
Sayin' that I be sleezy  
4am and I'm TT  
Roll around with your new boy and you sayin' that you don't need me  
But I'm outside  
Who you think you foolin' we know you gon' still slide  
Maybe I gave you away but end of the day girl you is still mine  
We just wanted different things at the same time  
Hang around my guys I ain't got time for no love life  
I wasn't made to get fried my whole life eatin' Popeyes  
Either I get to the cash or I die so you know I'm

Movin' stateside  
The stakes high  
Tryna take time  
But I can't take five  
Bitch there's way too many people tryna take mine  
And there's way too much winin' through the grape vine  
Let me show you this bag is different  
(Huh)  
Let me show you this class is different  
(Ugh)  
Nowadays bitch I been laughin' different  
(Ha)  
Now everybody actin' different  
(Ooo)

Give a fuck 'bout a hater I know what it seems  
My pockets on fat, they anemic  
Mo' money mo' people that's leavin'  
But I gotta put on for the city  
I don't care if that bitch be pretty  
I would never let a hoe fuck with me  
I don't fuck with that bitch she a pick me  
Oh yeah  
Pick me oh yeah  
Fuck her then kick that bitch right to the curb  
Shorty on Twitter tryna talk to the birds  
I'm stackin' money to talk to the nerds  
You doin' shrooms to go talk to the Earth  
He talkin' shit go and talk to the turds  
You tell me who's livin' worse

Movin' state side  
The stakes high  
Tryna take time  
But I can't take five  
Bitch there's way to many people tryna take mine  
And there's way too much winin' through the grape vine  
Let me show you this bag is different  
(Huh)  
Let me show you this class is different  
(Ugh)  
Nowadays bitch I been laughin' different  
(Ha)

Now everybody actin' different  
(Oo)

I know you want me to yourself  
I know I put you through hell  
It hurts you bad I could tell  
But I can't treat you better
