

Bad Sign

Eric Saade

Money don't just happen
She said la la la
Carefree walking down the avenue
Yeah the thing is don't you know you need a little
To get going and you ain't got a little now do you

Let's talk about times about hard times
When you done wrong (yeah)
I know the ones
When somebody gives you a break boy
You better get going
Hesitate and it's gone
What I got is gonna help me get what's mine
I'm born under a badly busted sign
Lack of luck and poverty combined
I'm born under a badly busted sign

One look was all it took she had me
Pinned down
Figure out in retrospected
It ain't that hard to tell
I was taught just how to steal I was taught just when to lie
I set out and it worked pretty well

Let's talk about times about hard times, when you done wrong
I know the ones
When somebody gives you a break boy
You better get going
Hesitate and it's gone
What I got is gonna help me get what's mine
I'm born under a badly busted sign
Lack of luck and poverty combined
I'm born under a badly busted sign

I'm born under a bad
I'm born under a bad
I'm born under a badly busted sign
I'm born under a bad
I'm born under a bad
I'm born under a badly busted sign

What I got is gonna help me get what's mine
I'm born under a badly busted sign
Lack of luck and poverty combined
I'm born under a badly busted sign
