

# Crashed On The Dance Floor

Eric Saade

Never thought that it would feel right  
When you left me so cold  
Now I'm out your door  
I'm ready to move on, yeah  
Separated from the heartache  
But I never gave in  
So I'm out your door  
You'll miss me when I'm gone, yeah

You won't steal love tonight  
I'm leaving the keys  
Give them to another guy  
Who'll be the one who's falling

You knocked me out of your world  
Out through the back door  
I crashed on the dance floor  
Tonight I live and I learn  
Ready to explore right here on the dance floor  
Don't tell me what to do  
I'm out your zone  
Don't tell me who to chose  
Can't be controlled  
You knocked me out of your world  
I crashed on the dance floor  
I crashed on the dance floor, yeah

Heard you got another partner  
Can't be serious now  
Only five days later, felt it was the wrong guy  
Now I see you on the  
Are you falling of track  
Calling me saying you miss me  
Won't be turning back

You won't steal love tonight  
I'm leaving the keys  
Give them to another guy  
Who'll be the one who's crawling

You knocked me out of your world  
Out through the back door  
I crashed on the dance floor  
Tonight I live and I learn  
Ready to explore right here on the dance floor  
Don't tell me what to do  
I'm out your zone  
Don't tell me who to chose  
Can't be controlled  
You knocked me out of your world  
I crashed on the dance floor  
I crashed on the dance floor, yea

I'm falling  
I'm crashing  
But I will survive  
I miss you

Don't need you  
'Cause I'm more alive, yeah

D-d-dance floor

You knocked me out of your world  
Out through the back door  
I crashed on the dance floor  
(I crashed on the dance floor)  
Tonight I live and I learn  
Ready to explore right here on the dance floor  
Don't tell me what to do  
I'm out your zone  
Don't tell me who to chose  
Can't be controlled  
You knocked me out of your world  
I crashed on the dance floor  
I crashed on the dance floor
