DAY & NIGHT

Eric Saade

Black car pullin' up in town
Lookin' lucky, got something to get a rush
I've been overboard since I was just a boy
I did things that I'm not proud of anymore

I wasn't the best flavor, the best neighbor
My soul was broke, always falling down
I couldn't stand up, I didn't wanna talk
All I ever knew was to run, run, run

You don't ever want me to go
You're loving me day and night, me day and night
You're giving me your heart 'cause you know
I'm loving you day and night, you day and night
Yeah, we lost babe, ah
But we don't care, yeah
'Cause you don't ever want me to go
You're loving me day and night, me day and night

Black car drivin' us in town
When I was young, I thought my life was a one-man show
You gave me feelings that was buried in the ground
And baby, that made me the man that you know

Now I'm the best flavor, the best neighbor
My soul was broke, always falling down
But now I stand up, the late-night talks
Now I really know you're the one, one, one (Yeah)

You don't ever want me to go
You're loving me day and night, me day and night
You're giving me your heart 'cause you know
I'm loving you day and night, you day and night
Yeah, we lost babe, ah
And we don't care, yeah
'Cause you don't ever want me to go
You're loving me day and night, me day and night

You don't ever want me to go
You're loving me day and night, me day and night
You're giving me your heart 'cause you know
You're loving me day and night, me day and night

Yeah, we lost babe, yeah
And we don't care, hey
You don't ever want me to go
You're loving me day and night, me day and night

You don't ever want me to go
Day and night, day and night
You don't ever want me to go
