

# Rocket Science

Eric Saade

Simple as this  
I'm laying the facts  
We walked through a maze  
And we can never go back  
The passion we miss  
Because of her act  
I sing this song bitterly, bitterly  
So I reminisce of times in the past  
Don't know how we stuck  
We started falling off track  
'Cause I feel dismissed  
We're fading to black  
I sing this song miserly, miserly

Now that I keep climbing  
You're losing grip  
You're far behind me  
And there's no sacrificing  
Something so simple  
How could she twist it all up  
To love it ain't rocket science  
Rocket science  
(oh-oh-oh-oh-oh-oh-oh)  
To love it ain't rocket science  
Rocket science

It's simple as this  
I'm letting her know  
I'm leaving, no traffic sign can stop me on the road  
Recalling her kiss  
How could she let go  
I sing this song bitterly, bitterly

How can we replace something that you erased  
You're such a criminal, criminal, criminal, criminal  
You're tearing down my roof but still I have no proof  
You're such a criminal, criminal, criminal, criminal

Now that I keep climbing  
You're losing grip  
You're far behind me  
And there's no sacrificing  
Something so simple  
How could she twist it all up  
To love it ain't rocket science  
Rocket science  
(oh-oh-oh-oh-oh-oh-oh)  
To love it ain't rocket science  
Rocket science

I hope you're safe and sound  
Girl, I won't be around  
You're such a criminal, criminal, criminal, criminal  
How can we replace something that you erased  
You're such a criminal, criminal, criminal, criminal

Now that I keep climbing

You're losing grip  
You're far behind me  
And there's no sacrificing  
Something so simple  
How could she twist it all up  
To love it ain't rocket science  
Rocket science  
(oh-oh-oh-oh-oh-oh-oh)  
To love it ain't rocket science  
Rocket science  
Oh-oh-oh-oh-oh-oh-oh  
(Rocket science)  
Oh-oh-oh-oh-oh-oh-oh  
(Rocket science)  
Oh-oh-oh-oh-oh-oh-oh
